Projects & Code

- **whatMusic** (link: whatmusic.xyz)
 - Made a new friend? whatMusic shows you what kinds of music you each listen to - common artists, tracks, etc.
 - Technologies: React-Node, APIs (Spotify, Apple Music, SoundCloud), Heroku, AWS ([GitHub](https://github.com))
- **devJobs** (link: devjobs.pro)
 - Basic Fake LinkedIn: create a profile, post a job, search jobs and candidates by skills match percentage, send messages.
 - Technologies: Angular-Node, MongoDB ([GitHub](https://github.com))
- **rBP (robotButlerPal)** (link: rBPal.me)
 - Combines the user's hard data, like: 24-hr activity timer, food & exercise log, weight log, project mgmt, etc., and high EQ based on research and practice, to support users in consistently choosing to improve their quality of life.
 - Accompanying humanoid robot serves as an old and trusted friend, butler/servant, bodyguard, trainer, etc.
 - Technologies: Vue.js, Django (Python), MySQL ([GitHub](https://github.com))
